Release Notes

MEMNET v2.4.8 Report Master Upgrade

Monday 18th October 2010

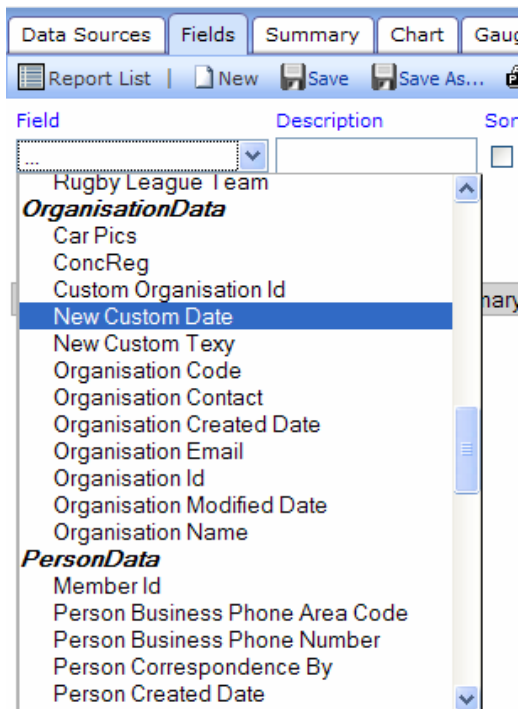

New Clean look and Feel Report List

Screenshot of the new look and feel Report List

Multiple Data Source Dropdown

On all tabs fields are grouped by datasource. Users will easily know which datasource the field is from.

Quick Add

Available on the **Fields** tab, this feature enables users to quickly add fields to the report using a checkbox interface rather than the standard dropdowns.

Please select the fields you'd like to add to your report.

Advanced Properties

Available on the **Fields** and **Summary** tabs are the "Advanced Properties" dialogs. These enable users to hide, format, drill down and calculate on fields without needing any custom code.

Hide this field

OK

Easy Drill-down

Easy Drill down reports can be created using advanced properties. Simply select the subreport to be drilled into, the field being used as the key, and the drilldown style (link, popup, new window or embedded).

The screenshot shows a configuration dialog box for Easy Drill-down reports. It contains several options and fields:

- Hide this field:
- Sort (z-a):
- Italic:
- Bold:
- Width:
- Subreport: Days Old (dropdown menu)
- Drill-Down Style: ... (dropdown menu)
- Url: Link (dropdown menu)
- Subtotal Function: Link(New Window), Embedded, Popup (dropdown menu)
- Text Highlight:
- Cell Highlight: example: 5 to 6:Blue;7 to 10:Red (text field)
- OK button

Funnel chart

Available on the **Charts** tab is the ability to add a Funnel chart. A Funnel chart displays values as progressively decreasing proportions. They can be used, for example, to represent stages in a sales process.

New visual group styles

Available on the **Style** tab is the ability to change the visual grouping label style. Users can set it to line delimited, multi-level, comma delimited or even emulate a reporting services grid among others.
